

Barriers to the Study of Scientific Subjects and Level of Knowledge of Basic Chemistry

ADULT LEARNERS' CASE STUDY

Adult Learner's Case Study N.: 4

Name, Subject Studied, Place: *Male, n/a*

Description of the Case Study

Reasons of the decision not to continue studying scientific subjects: *lack of motivation and effort to persuade students to be interested in chemistry and continue in it's studying*

Main difficulties in scientific subject learning at school: *Nothing specific, but there wasn't probably enough enthusiasm*

Self evaluation of knowledge of chemistry: *Upper-intermediate*

Evaluation of the scientific information provided by the media: *no, they do not. But it does not matter.*

Perception of the word "Chemical" : *"complicated" :-)*

Result of the basic chemistry test: *Fair*
