Barriers to the Study of Scientific Subjects and Level of Knowledge of Basic Chemistry

ADULT LEARNERS' CASE STUDY

Adult Learner's Case Study 3:

Name: *Gülşah Tanrıverdi, Female*

Subject Studied: *Mathematics*

Place: *Kırşehir*

Description of the Case Study

Reasons of the decision not to continue studying scientific subjects: *The perception that science as a field is a very challenging area made her avoid studying science.*

Main difficulties in scientific subject learning at school: *Too much theoretical coursebooks, poor material.*

Self evaluation of knowledge of chemistry: *Fair.*

Evaluation of the scientific information provided by the media: *Good. If there is information on the media, it is easy to understand. Now there are many programmes about everything.*

Perception of the word "Chemical": *Dangerous materials at factories and refineries.*

Result of the basic chemistry test: *Good.*
