

Participation in education fairs and research events

- European education and lifelong learning exhibition – information about offers of tertiary education
- For SS pupils and their parents
- Gaudeamus Brno, Gaudeamus Prague, Academia Bratislava, Scientia Pragensis
- Brno approx. 30.000 visitors, Prague approx. 8.000 visitors

International Year of
CHEMISTRY
2011

Activities within IYCh

www.chemistry2011.org

- Focused on ES and SS pupils, general public
- Networking breakfast – women chemists in CR, 18.1.2011
<http://www.chemistry2011.org/participate/activities/show?id=205>

Planned open air events

- Part in state-wide fest for young children „Bambiriada“ – activities for free time
- Science on streets (in July 2011 in 3 cities in the CR)
- „Chemical fairs“ in 3 CR cities , 23.9.2011 (together with EU Researcher´s Night)

Activities for SS teachers

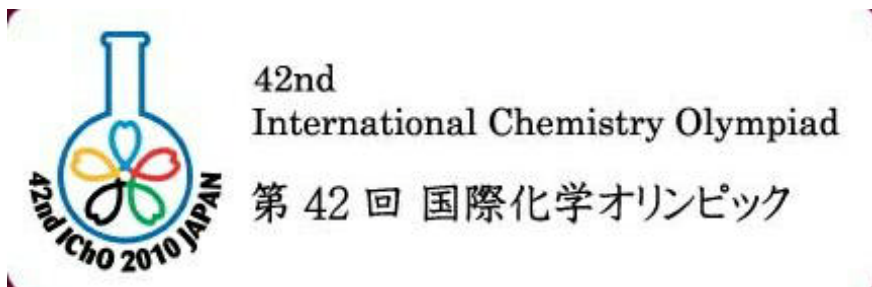

http://www.vscht.cz/homepage/tisk/stredni_skoly/

- Summer school for SS teachers (in 2011 25th year already, different topics, 4 days meeting of teachers in the premises of ICT Prague, approx. 50 participants)
- Seminars for SS teachers „How to teach chemistry“ and „How to teach biology“
- <http://picasaweb.google.com/115852139307713795976/24LetniSkola#>

Other activities

- Extra courses in math and chemistry for 1st year students to balance the level of knowledge between different SS – project financed under ESF
- [42nd International Chemistry Olympiad](#)
- <http://www.icho2010.org/en/results.html>
- 2 golden and 2 silver medals for Czech students

colis

after the meeting in Prague, Czech Republic 29-30th March 2010

The last group of 15 young media makers met in Prague, Czech Republic for the last workshop – at Modern Chemistry at Institute of Chemical Technology (ICT). It was the sixth meeting in the framework of My Science Program.

Ing. Jarka Cepkova YouTube

Participants

Representants of Italy, Netherlands, Turkey, Poland, Denmark, USA, Spain, Moldova, France and Albania came to Prague.

- Excursions to ICT Prague labs
- Cooperation with scientific journalists
- Participation in FP7 project
My Science European Programme for Young Journalists
- Cooperation with multimedia
- Broadcasting in radio (Leonardo) and TV about interesting scientific, also chemical topics
